CoE Status

In this issue:

- CoE Status
- Microsoft Ignite
- Important News

Long time without post for you, we know it!

This month Microsoft hosted *Microsoft Ignite*, where they shared a bit of innovation and what we can expect from Azure and AI-powered assets. We are always open to receiving new mentees, ask your manager or send an email to: jesus.vargas@blueriver.com

Microsoft Ignite:

Becoming an AI-powered Organization with Microsoft copilot:

Join Rajesh Jha, along with Jared Spataro and other leaders to see how Microsoft Copilot will unlock productivity and transform business processes for everyone across functions and industries.

The Future of Security with AI:

While the new era of AI presents unprecedented opportunities to elevate human potential, it also ushers in a new set of unknowns and risks. In this session, Charlie Bell and Vasu Jakkal will share how Microsoft is delivering AI for security with Security Copilot, and how we are enabling organizations to secure and govern AI with new capabilities.

Microsoft Cloud in the era of AI:

Scott Guthrie and other leaders will share how the Microsoft Cloud is uniquely positioned to help our customers transform by building AI solutions and unlocking data insights using the same platform and services that power all of Microsoft's comprehensive solutions.

Build your own Copilot with Azure AI Studio:

Dive into Azure AI Studio - a cutting-edge 'code first' experience to build generative AI applications including enterprise chat and custom copilots. We'll share how to ingest real-time data from Microsoft Fabric's OneLake, test Large Language Models (LLMs), and deploy Proof of Concepts (PoCs) at scale. Join us for a journey of innovation!

Important News:**Microsoft Cloud Challenges:**

Unfortunately this year *Microsoft* delivered many challenges through the Ignite event, but without the promise of bringing the participants a free voucher for taking an exam certification, this is happening also in *Virtual Training Day* events, this center of excellence will continue to monitor those events to let you know when you can get a virtual training and win a free voucher for exam test or a discount for exam test. This effort is for you and allows you to build a low-cost career path.
